Summary

Full-Stack Developer experienced in building web applications with Next.js, MERN, TypeScript, and Supabase/PostgreSQL. Delivered Skyline Outlet LLC's B2B catalog and admin panel for 50 brands and 2,000 products, and independently built a MERN-stack student clearance system. Skilled in UI development, server-side logic, database design, and access control using RLS and RBAC.

Experience

Skyline Outlet LLC — Islamabad, Pakistan May 2026 – Present

Full-Stack Developer *skylineoutletllc.com*

- Built the public B2B catalog website and custom admin panel from scratch using Next.js App Router, React, TypeScript, and Tailwind CSS, structured for 50 brands and 2,000+ products.
- Developed admin tools to create, update, delete, and view products, categories, brands, and quote requests.
- Designed the PostgreSQL schema in Supabase and integrated it with Next.js Server Actions and REST APIs for server-side data handling.
- Secured data using Row Level Security (RLS), role-based access control (RBAC), authentication, authorization, and account-state validation.
- Implemented Supabase Realtime over WebSockets to synchronize data across open browser tabs.

Projects

Skyline Outlet LLC — B2B Wholesale Platform

Next.js, Supabase, PostgreSQL, TypeScript, Tailwind CSS

- Built a complete B2B wholesale and procurement platform with dynamic product, category, and brand relationships.
- Implemented real-time updates so the admin quote panel refreshes when buyers submit requests.
- Added server-side security checks and role-based access control for secure corporate quote workflows.

Student Clearance System GitHub

React.js, Node.js, Express.js, MongoDB

- Independently developed the complete system, including the React frontend, Node.js/Express backend, and MongoDB database.
- Implemented CGPA and failed-course eligibility checks, plus a separate view for students with no F grades but below-cutoff CGPA, showing C/D courses and attempt counts.
- Built the system to reduce the need for students to visit each department physically for clearance.

Technical Skills

Languages: JavaScript, TypeScript, Dart, HTML5, CSS3
Frontend: React, Next.js (App Router, Server and Client Components), Tailwind CSS, Flutter
Backend and APIs: Node.js, Express.js, Next.js Server Actions, REST APIs, JWT
Databases and Realtime: PostgreSQL (schema design), Supabase (Auth, Realtime), MongoDB, WebSockets
Security: Row Level Security (RLS), role-based access control (RBAC), authentication, authorization
Tools: Git, GitHub, Postman, Vercel

Education

Bachelor of Science in Computer Science (BSCS) Graduated April 2026

Barani Institute of Information Technology, Pakistan
